

# SEPTEMBER 2021

During the month of September, SNA was busy! We had a huge fundraiser selling T-shirts through out the whole Nursing and Health Professions building . This fundraiser was to help raise money for our trip to Utah in April for the National SNA conference. SNA also took all of the donations from Welcome Week to Microsociety. These donations were to help some children in need of supplies throughout the school year. We also had a table at the Red Wolf Center for Pack Preview this year. Our tabling went great and we got to meet lots of students to share some information about the nursing program. This was an awesome opportunity to be able to meet people and get involved with students who are thinking about joining the nursing program. Dr. Gordan, the new Dean of the nursing program was also there getting involved and getting to know our students and professors better.

**MICROSOCIETY DONATION**

**T-SHIRT DESIGNS**
