What Have We Been Up To?

Over the summer and throughout the month of August, SNA was busy getting things ready to go for Sophomore Orientation. SNA held multiple meetings to prepare for the 115 new nursing students that attended Sophomore Orientation. SNA also talked to many businesses in Jonesboro about sending donations for door prizes and raffles for the new students that were picked up by SNA members. SNA was also responsible for getting food and drinks provided, all while attending the orientation day to make sure things ran smoothly.

Currently, SNA is working on multiple T-shirt designs to be sold to all health profession students and faculty. There will be a link and finalized design soon to come.

Welcome Week!

During Welcome Week, SNA held a "Wild About Nursing" event. There was a great turnout of nursing students from every class and even many professors! There was food, games, a photo booth, raffles, and door prizes. Donations were brought in to be entered into the raffle. The donations were for a local school in need of water bottles, masks, clothing, and toiletries. SNA had a blast with Welcome Week and are thankful for those who came out and brought donations!
